Business Development Platform Events

Yapı – Turkeybuild Istanbul ICA Connect

ICA Connect platform provides more productive exhibition for exhibitors, visitors and hosted buyers with pre-scheduled meetings.

With this application, **7,500+** meetings were held between the exhibitors, professional visitors and buyers.

430 professional hosted buyers were at Yapı - Turkeybuild Istanbul 2023

Via ICA Connect, virtual trade platform used since 2018, all exhibitors and foreign buyers held over **7,500** meetings and had the opportunity to form new partnerships fastly, effectively and free of charge.

As organized every year, this year's VIP Hosted Buyer programme welcomed **430** hosted buyers from **60** countries who wish to obtain new job opportunities and grow its bussiness.

I have to say that we are quite satisfied about the fair. Lot of people are coming. There are visitors not only from Turkey but also from other countries. And this is very important for us because we know that Turkey is an important commercial hub. And we are having meetings with companies from Africa, the Middle East and Europe as well.
